SUSTAINS YOUNG AMERICA AGAINST OVERWHELMING ODDS.

Notwithstanding Many Reverses There are Some Signs of Improvement in the Business World Conditions.

NEW YORK, May L-R. G. Dun & Company's weekly review of trade will

It is now as it has been for nearly a year the amazement of intelligent observers that the United States suffers so little from reverses which other lands share, but which fall more heavily here than anywhere else. The past week has seen events which would suffice to cause to explain much disaster, strikes of carly all bituminous coal miners and workers, with numerous rlots, of many thousand men in other ments, stoppage of many manuments, stoppage of many manu-many works in consequence, arrest the on several great railroads by proceedings, and the stamping consuted men, in all numbering thousand, toward the National west price ever known for almost the lowest prices for commodities as a whole, are 300 gold, instead of abnorsened products, and the fail sary gold reserve below the mit, are significant of wide-Yet the volume 31.3 per cent, less than appear even now, and of the people in their

MONEY MARKET NOT DISTURBED, oney markets have not been disturbed the large outgo of gold, which was ken mainly from the Treasury through temption of notes. Continued flow of the minimum of notes. Continues how of the unemployed money hither is not a sign of health, nor the outgo of gold, instead of wheat at 61 cents or cotton at 7.31 cents. The demand for commercial loans of the better class does not increase, but there are more numerous applica-tions for loans on questionable paper from the interior. Customs receipts were only \$10,176,691 in April, against \$15,418,638 last year, and are not likely to increas while tariff changes are pending. Ex ports of products are declining, though in April 9.2 per cent, larger than last year, and the decrease in imports is

about 33 per cent. MONEY MARKET NOT DISTURBED.

The most encouraging sign is the marked decrease in Habilities in firms failing, which were only \$1,448,144 for the last week of April, and for four weeks \$8,566,587, of which \$3,722,220 were of manufacturing, and \$4,644,367 of trading concerns. The amount of Habilities at the South was \$2,919,429 against \$3,111,662 in Eastern, and \$2,892,257 in Western States, The failures this week have been 233 in the United State against 216 last year, and M in Canada against 27 las, year

As Brudstreet Sees It. NEW YORK, May 4.-Bradstreet's to-

morrow will say:
The movement of general merchandise throughout the country is smaller in volume. Spring trade is finished, and orders for fall delivery are, with few exceptions, not meeting expectations. Joubers in leading lines at almost all large cities report sales as of a hand-to-mouth description. The extension of the coal and coke strike, accompanied by riots at Cleveland and Mesaba, has emphasized the depression. The industrial situation, therefore, has no improvement. Strikes of iron ore miners, among building trades, with an extension of the coal miners' strike and the almost total cessation of operations in the coke regions, have swelled the total number of idle industria workers to fully 115,000. Shut-downs of industrial concerns dependent on coke or soft coal for fuel are increasing, notwing-standing an attempt of coal operatives and operators to get together to arrange

There is more animation in demand for lumber and teather at Philadelphia, but increased prices for Bessemer pig iron and steel billets at Pittsburg and other have not resulted in more orders. SOUTHERN TRAFFIC QUIET.

Throughout the South traffic has remained very uniformly quiet, exceptions being at Charleston, Augusta and New Orleans. The strength of rice is a fea-ture. At Baltimore quiet prevails in all kinds of trades. A few manufacturing lines at Louisville report an April busi-ness equal to 1893, but almost all others say it is from 10 to 30 per cent. smaller. The Nashville money market is weaker, but at Memphis and Chattanooga there s no change in trade from last week in is report the only activity noted in Stares market is firm. Only a moderate dune of trade has taken place at Mo-ble and Birmingham frankly admits the cul strike has further checked sales by

A revenue officer recently went through Union county claiming to be a recruiting officer for Coxey's army. He said he wanted only Populists, and if enough did not volunteer he would have to conscript them and take them all. Many of the more ignorant ones of that political faith became very much excited and faith became very much excited, and some of them hid themselves, it is said, in the woods. Offerings and Sales at the Richmord To. bacco Exchange-Internal Revenue Collections-Foreign Advic.

NEW YORK, May 4.—Speculation at the Stock Exchange to-day was confined exclusively to the Industrials. These stocks were active throughout, and figured for 125,000 shares in a grand total of 199,000 shares. Sugar was traded in to the extent of 57,400 shares, Chicago Gas 20,500 shares, Whisky 20,000 shares, and Lead 16,008 shares. Sugar also scored the greatest advance, rising from 107% to 1998. Lead rose 14%, Chicago Gas 1%, and Whisky 1%. The strength and activity of the stocks named was due to announcements from Washington that the Senate had agreed to push the tariff bill. It was said that the sugar refiners will receive adequate protection, and that the interest of the Lead people will be taken care of. The promised raid on the Railroad group did not take place, the raiders evidently being deterred by the fact that the engagement of gold for export by to-morrow's European steamers fell below expectations. The amount to be shipped from this point and Boston amounts to \$2,350,000, of which \$2,100,000 was withdrawn from the sub-Treasury. The total gold export this week foots up \$5,450,000. The reduction in the exports had a good effect on the Railway market during the afternoon, and an advance of \$4, to 1% per cent, ensued, the Grangers leading the upward movement. New England, however, was exceptionally weak, and fell 1 to 6. The general market left off steady, except for the Industrials, which were strong. The net changes for the day show gains of \$4, to 1% per cent, the latter in Sugar, Railway and miscellaneous bonds were irregular. The sales of listed stock aggregated 173,000 shares; unlisted, \$6,000 shares.

DAILY COTTON LETTER.

Following is the daily cotton letter of Atwood, Violett & Co., of New York, by private wire to C. W. Branch & Co.:

This market advanced this morning 4 points, but it offered the usual attraction for the bears, who hammered successfully, knocking it down 12 points on August, touching the lowest realized yesterday, 7.08 for August. A recovery from this followed, and the market closed 5 points lower than last nights. Liverpool ave some assistance, but after the decline set in here they sympathized by losing all of the improvement there this morning, closing barely steady. Our cable from there to-day was a demoralizing one, showing that they are made timid by the continued weakness of this market. They are so ready to believe anything indicating an increased acreage or favorable crop accounts as to make the dispositon there a selling one rather than a buying one, and it is hard to move them in an upward direction. It may be that this side will have to take the initiative, and this will happen if the buying power is only of a character to stay and not sell out for a few points profit, and by their selling add to the weakness induced by the bears. There have been several operators here successful on the bear side who have changed their position.

On the other hand, some of the most aggressive shorts are still pessimistically inclined, and hold to their contracts on DAILY COTTON LETTER.

that side. If speculation were at all active there would be but one course for the market to take, and that would be an advance, which might be a very considerable one if the volume of buying were sufficient to assist to that end. The long interest is so well liquidated it would seem the shorts must do the selling now in order to push the market lower, as the selling of long contracts, except those held by strong people, will not be an element of weakness on the market. The stock of American at Liverpool to-day is 1,43,000 bales, against 1,345,000 bales last year, and the amount afloat for Liverpool is 60,000 bales, against 80,000 bales, port receipts for the week, 41,557 bales, against 20,000 bales, the former including receipts at Port Royal. Brunswick, and Newport News, otherwise receipts would have been smaller than those of last year, interior receipts, against 25,500 bales, and interior stocks against 225,506 bales. Exports to-day, about 25,000 bales.

CHICAGO.

CHICAGO.

CHICAGO, ILL., May 4.—Shorts in wheat were not scared to-day, but they were uneasy. The market started in well, and as the session progressed, the outlook for holders improved. Pardridge made a show of selling some wheat, but finding that prices could not be kept down, apparently withdrew his orders. The more conservative shorts bought liberally, and were assisted in their endeavors to undo themselves by the scalpers, who went with the tide. July wheat opened unchanged at 50%c., advanced to 60%c., holding closed at %c., a full cent higher.

From 4 to 6 May was obtainable for choice hard spring corn. While not fully participating in the advance of wheat, the corn market was, nevertheless, firm, with an upward tendency, July opened where it closed last night, at 38%c., thereafter selling between that and 33%c. closing at 38%c., a net gain of %c. for the day. A moderate inquiry for cash corn was noted, with prices ranging kollect, higher.

Oats—May continued to show strength purely on the efforts of shorts to get out of their trades. Offerings were light. Holders, although they do not make any movement to advance prices, at the same time refrain from offering any oats, and the result is that shorts

bid the market up on themselves. The other futures were firm. May cats were one time 1%c. higher than yesterday's close, but later receded. July closed %45%c. over yesterday. Cash oats were in good demand at %61c. advance.

Provisions were strong. The market was without feature of note, unless the buying of pork in moderate quantities by one of the packing institutions could be so called. The strong market for live hogs, coupled with the report that the quality of the animal was not so good, was the main cause for the firmness at the start. Later the strength in wheat improved prices for product. July pork closed 30c. higher than yesterday, July ard 7%610c. higher, and July ribs 10c. higher.
